Felix Hammes

„The pickleball boom in the USA fascinates me. Since I come from a badminton background myself, it was clear that I would jump on the bandwagon. The fact that Joola is now making it possible to bring together the best players in Europe at the German Open in Kerpen is a big step toward growing the sport further in Europe. At the same time, it will be a great personal pleasure for me to commentate on the event and help promote the sport through media as well!“
